## PRESIDENT'S MESSAGE

As the summer/fall schedule hurtles to a successful conclusion, R.A. looks towards the winter with anticipation.

The members who organize the ski season have been busy sorting out details for day trips and weekend vacations. R.A. will be offering greater flexibility in choosing day trips this winter and still for the same price as last year; so go into the garage, closet, shed and take inventory of your skiing equipment and don't forget - what you can't find you can buy at discount prices at several Montreal stores just by showing your R.A. membership card.

Apart from the 'white stuff' the social calender is also something to look forward to. Elise Brais has organized a programme of parties, slide shows and Yes, R.A. guaranties a gourmet encounter followed by a close encounter at the Dow Planetarium.

A special mention must go to Jo Anne Gray, Ken Fisher and Ruth Lawee who were instrumental in nurturing the Club to a solid foundation. R.A. wishes you both every success in your future endeavors.

I would like to thank the new volunteers such as Sam Allison, Eve Gibeault, Eisha Marjara, Ian Deacon and Sharon Levin. It's encouraging to see new blood carrying on R.A.'s tradition.

Finally, to the volunteers who have organized and run all events this year, I also thank you.

My words completed - time for you to check out all the details inside and arrange your winter activities with Randonnée Aventure....

## EDITORIAL

Hello Folks, here it is...Volume II, Number 3, RANDONNEWS 87/88 fall/winter edition.

I have been honored with the task of editor for this voice of the Randonnerds. I must say that when my predecessor - Jo Anne Gray ceremoniously placed the paper in my hands, there were tears in her eyes, and I knew that she felt like she was handing over her child - well, have no fear Jo Anne - your child will be well taken care of!

The Randonnews is a task I could never accomplish on my own. For this reason I wish to express my heartfelt thanks to the Executive Committee for presenting to me their well thought out reports before the deadline, thus making my task a far easier one.

In addition, I wish to thank my Randonnews Committee - Vera Tobis for her editing, compiling and typing assistance, Eisha Marjara for her illustrations and her editing and compiling assistance and Elise Brais for her photocopying and editing assistance.

And finally, I would like to thank Gerry Bard, Monika Malecka, Wayne Waters and Colin Mason for contributing the photographs.

I hope you all enjoy this Randonnews edition...until we meet again,

*Eve*

## Tribute to Jo Anne Gray

I am honoured to have been asked to write a tribute to Jo Anne, the Past President of Randonnée Aventure. For those of you who haven't met her, she was the person elected as President when our Club was just beginning to roll as a co-operative in the Spring of 1986.

Jo Anne's dynamic enthusiasm touched every aspect of the Club, starting with her joyful greeting on our first hike!. She shook hands with everyone as they got on the bus with a hearty, 'Welcome, welcome, welcome!'

The birth of Randonnews, her singing with guitar accompaniment to enliven last year's Corn Roast and subsequent parties, the Logo and T-Shirt designing contest and the 'semi-impromptu' talent show that ended the ski season - all these things and more added so much spirit to the Club, making it the dynamic and close-knit group that it now is. We would like to thank her for all her energy in planning and organizing so many aspects of the Club. Our task in keeping the Club growing and developing has been very surely established.

Now Jo Anne is continuing studies in Educational Psychology at U.B.C. in Vancouver. On behalf of all the Club, Jo, the very best of luck and be sure we'll all look you up when we go to Vancouver.

## Orienteering

R.A. is exploring another activity to add to its present diversified list. Orienteering is an exciting and challenging sport where competitors must read a map and compass to find their way from a starting point to a finishing point. There are no trails mapped out - it's up to the competitors to get there using their own skill!

R.A. would love to introduce its members to orienteering; therefore, an orienteering meet will take place on October 18, 1987. To prepare people for the meet, Phil and Don have given two map and compass courses. If you were unable to attend the courses, have no fear, preinstruction will be available on October 18 at the meet.

Details for the meet are as follows:

Date : Sunday, October 18, 1987  
Location: Morgan Arboretum, Ste. Anne de Bellevue  
Price : \$6 per person

Registration: Complete registration form on back

## Trail Maintenance

RA has decided to take on the task of maintaining the Montreal Section of the Long Trail. This section extends from Belvedere Mountain - Route 118N to Hazen's Notch - Highway 58. The total length is 10 1/2 miles of Long Trail and 5 miles of side trail.

This job was formerly performed by the Montreal Section of the Green Mountain Club which has since folded.

The trail maintenance will include at least five maintaining sessions a summer, including a spring and fall walk-through (an examination of the work to be performed on the trail).

This is a tremendous opportunity for club members to spend a weekend outdoors working and becoming a part of trail history. One can make his/her mark by maintaining the famous Long Trail and keeping it alive for future hikers.

The trail maintenance crew will start in early spring with a walk-through and then trail maintenance sessions will begin where trails, signs, blazes and shelters will be repaired. The crew will stay in a shelter 2 miles from a trail head. This shelter can accommodate 8-10 people and camping outside the shelter can accommodate 5-6 people.

Volunteers are needed for trail maintenance and will be trained by experienced people from the Green Mountain Club.

For more information or to sign up for this magnificent opportunity contact:

ELISE'S SOCIAL EVENTS

This summer's social events included our first Birthday Party in April which saw new executives being voted in and last year's executives being presented with plaques; the viewing of the Fossil's Play where laughter filled a packed auditorium; strawberry picking on St. Jean the Baptiste Day - and, of course, the consuming of strawberry shortcake; a barbeque and swim in the heatwave at Chris and Derek's; Gerry Bard's South Shore Cycling and Barbeque; a naturalist talk where Jacques Bertrand taught us about different animal signs, plants and the dangers in nature; and last but not least, Margaret's Annual Corn Roast - a success as always!

It is the social events as well as the sports activities that make this club so special. RA is always looking for exceptional people like Gerry Bard, Chris, Derek and Margaret who give their time to club social events.

And finally, I must say that the social events are not at an end Folks...turn to my social calendar for the fall and winter and see what other super activities will bring us all closer together!

CAVING

By Cal Hindson

(Was it really the Pyramids?)

Three more carloads with mostly first time cavers set out to explore underground caves in the Schoharie, New York area. This was R.A.'s first contact with Knox Cave, and, once again, we found a cave with a completely different look and feel.

In the largest room, and in certain corridors, the cavers had the eerie impression that they were inside an Egyptian Pyramid. This cave also contained the notorious 'Cannon Ball' Passage - a 50ft long crawlspace measuring 14 inches in diameter. One of our cavers braved this particular passage.

Other caves visited this summer were the Clarksville and Schoharie Caves; the latter provided cavers with a memorable straddling experience!

ANOTHER TRIP???

Are there anymore closet cavers out there?

How about you veterans?

Let us get other caving trips going! If you are interested,

CYCLING

The cycling season offered 4 day trips with an average of 34 cyclists per trip, as well as two 3-day condo trips where cycling was a popular option.

The cyclists enjoyed many different routes that were scouted to provide superb cycling for all levels.

This winter the Cycling Committee intends to study new routes and to expand to at least eight trips for the ensuing cycling season.

In addition, the Committee will be advising all cyclists to don the proper cycling attire, to possess the proper tools & equipment and to have their bikes tuned before next year's first cycling trip.

The Cycling Committee would also like to thank everyone for an enjoyable and successful cycling season!

CONTEMPLATING CYCLING HELMETS

(KEEPING A-HEAD WITH RANDONNEE AVENTURE)

Are helmets really necessary? I interviewed four cyclists from four different stores - TRIATHALON, PEEL CYCLE, McNIECE SPORTS and McWINNIE'S to get their opinions on helmets.

The first person I spoke to was Fred Gariépy of TRIATHALON SPORTS. He said that the general consensus from people who didn't like helmets was that:

- a) they were too heavy;
- b) they were too warm;
- c) they were not attractive.

Fred's opinion is that helmets are a must and one has to live with the above mentioned inconveniences for safety reasons.

On the other side of the coin sits Helene Villemure of PEEL CYCLE, racer, instructor of cycling and road techniques. Helene feels that helmets are not necessary as people should learn to protect themselves, and they should also learn the rules of the road to avoid accidents.

When presented with the fact that people are, none the less, still falling on their heads and that the general commuter and tourer does not have the training and experience of a racer, Helene thought for a moment and then said, "I feel it is a good idea for the commuter and the tourer to wear a helmet, but racers should not be enforced to as they are trained to fall properly, they have quick reflexes and there are too many dangers of fainting from heat exhaustion in a pack of cyclists."

Joe Randemaker of McNIECE SPORTS says, "Personally I hate them, they are too hot, heavy and cumbersome", but when asked if he felt they were good for safety reasons Joe said, "Yes".

Bruno of McWINNIE'S says it really only comes down to two words - "Accidents" and "Danger". A helmet will protect you so why not wear it?

So are helmets really necessary? The general consensus from the interview is that they are definitely necessary for safety reasons so save your head and all that's in it and wear a helmet!

A: RANDONNEE AVENTURE (le "Club")

Je, \_\_\_\_\_, demande par la présente de devenir membre du Club, lequel je reconnais être une corporation à but non-lucratif dirigée et administrée par des volontaires non-professionnels. Je reconnais que les buts du Club sont, entre autres, de permettre aux membres de participer à des activités en nature sauvage, ainsi qu'à d'autres activités récréatives et que telle participation comprend des risques de blessures corporelles ou de mort.

Je confirme par la présente que ma participation aux activités organisées par le Club sera à mes propres risques et à mon entière responsabilité.
